

Over the past 65 years, SGH, Inc. has supplied the highest quality products and expert installation services to commercial builders throughout the Midwest. We are a leading distributor and installer of customized architectural products for the exterior and interior of buildings. From the initial idea to the final details, we have the resources to successfully execute projects of any size.

Our employees have an intricate knowledge of how the products perform and the best way to install them, which gives our staff the unique expertise our customers desire. We collaborate with owners, architects, and contractors to ensure that products look stunning from concept to completion.

Manufacturers

CENTRIA

Architectural metal wall panel and roof systems

Genwall™

Complete stud-to-skin enhanced substrate system (insulated backup wall) that exceeds newest ICB & NFPA codes. Installed in a single pass eliminating multiple sub-contractors and shortening installation schedule.

SGH, Inc./Aluminum Composite Material (ACM)

Dry joint MCM wall panel systems; Seicoline and Revelar using Reynobond and Alucobond MCM sheets.

Cembrit

High Density Compressed Fiber Cement Panel Rainscreen System

“**From the beginning** of the Polk County Jail project, SGH, Inc. was knowledgeable of their scope of work and the installation. This attention to detail carried over to the shop drawings, which made coordination of other trades effortless. We were also pleased by the way SGH, Inc. managed their work in conjunction with the construction schedule. They were quick to respond to project changes and communicated it with the installation crew.”

Ben Bunge

The Weitz Company, Project Engineer
