

## Sieccoline - Metal Panel Rainscreen System

The Sieccoline metal panel system is a rear ventilated rainscreen wall system with variable joint sizes and an ease of installation that results in a clean and precise finished look using 4mm ACM (aluminum composite material).

The dry-joint feature means minimal or no sealants are needed for superior protection. The system can be installed on Genwall® Enhanced Substrate System™ or on metal/wood studs, plywood, concrete, precast, or gypsum sheathing (with an improved vapor permeable air barrier, i.e. Tyvek.) This system allows for versatile design, including stacked, running board, or random patterns. Integrated weep holes in the panel allow enhanced drainage of moisture, while the air movement behind the system, minimizes excess vapor.

Fully tested per ASTM standards, the Sieccoline metal panel system is a sturdy, beautiful and economical exterior or interior for any building.

## System Features

system	rear-ventilated rainscreen
joint type	dry-joint / no sealant
joint size	¾" standard; ½" to 1½" optional
underlayment	Genwall® or Dupont Tyvek
substrate	Genwall® Enhanced Substrate System, plywood, gypsum board
independent testing	ASTM E283-04, E330-02, E331-00, AAMA501.1-05
maintenance	minimal
cost	economical

**Over the past 65 years, SGH** [a division of SGH Redglaze Holdings Inc.] has supplied the highest quality products and expert installation services to commercial builders throughout the Midwest. We are a leading distributor and installer of customized architectural products for the exterior and interior of buildings. From the initial idea to the final details, we have the resources to successfully execute projects of any size.

Our employees have an intricate knowledge of how the products perform and the best way to install them, which gives our staff the unique expertise our customers desire. We collaborate with owners, architects, and contractors to ensure that products look stunning from concept to completion.

**SGH is centrally located in six cities serving 10 states.**

**SGH provides many essential services for your project, including:**

- Design Assistance
- Shop Drawings
- Detailing Assistance
- Project Management
- Preliminary Budgets
- Installation
- Project Estimates
- Service/Maintenance
